AMETEK SI · PRINCETON APPLIED RESEARCH

AABATT1 batterihållare

Electrochemistry accessory

AABATT1 by Princeton Applied Research. Electrochemistry accessory. Required equipment and compatibility: PMC-1000 / PARSTAT 4000A / VersaSTAT.

Cell geometry
AA [1]

Compatible instruments
PMC-1000 / PARSTAT 4000A / VersaSTAT [1]

Connection
Direct to potentiostat, replaces cell cable [1]

Specifications

Cell geometry	AA	[1]
Compatible instruments	PMC-1000 / PARSTAT 4000A / VersaSTAT	[1]
Connection	Direct to potentiostat, replaces cell cable	[1]

Every value is taken from the manufacturer’s own document; the number after the value refers to the source list. Always check against the latest datasheet before ordering.

The data comes from the manufacturer’s published documents. Manufacturers may change specifications; the current configuration and performance are confirmed in the quotation.
