RDE0018 elektrokemisk cell

Electrochemical cell

RDE0018 elektrokemisk cell – electrochemical cell from AMETEK Scientific Instruments.

Cell format	perating volume	Rotating electrodes supported
Analytical cell kit [1]	**5–50 mL** [1]	**RDE / RRDE / RCE (dedicated cell top for 616 or 636A/B rotator)** [1]

Specifications

Cell format	Analytical cell kit	[1]
perating volume	5–50 mL	[1]
Rotating electrodes supported	RDE / RRDE / RCE (dedicated cell top for 616 or 636A/B rotator)	[1]
Counter electrode	Platinum wire	[1]
Reference electrode	Ag/AgCl	[1]

Every value is taken from the manufacturer’s own document; the number after the value refers to the source list. Always check against the latest datasheet before ordering.

The data comes from the manufacturer’s published documents. Manufacturers may change specifications; the current configuration and performance are confirmed in the quotation.
