RDE0026 referensbrygga

Electrochemistry accessory

RDE0026 by Princeton Applied Research. Electrochemistry accessory.

Upper length dimension
72 mm to the top edge of the ball joint [1]

Lower length dimension
70.5 mm from the bottom of the ball joint to the tip [1]

Joint sizes
14/20 standard taper joint (top) and 28/15 ball joint [1]

Specifications

Upper length dimension	72 mm to the top edge of the ball joint	[1]
Lower length dimension	70.5 mm from the bottom of the ball joint to the tip	[1]
Joint sizes	14/20 standard taper joint (top) and 28/15 ball joint	[1]
Tip	4 mm porous glass frit	[1]
Function	Isolates reference fill solution and reduces iR drop	[1]

Every value is taken from the manufacturer’s own document; the number after the value refers to the source list. Always check against the latest datasheet before ordering.

The data comes from the manufacturer’s published documents. Manufacturers may change specifications; the current configuration and performance are confirmed in the quotation.
